URBANSCAPES Ostrava 2019

INDUSTRIAL URBANSCAPES: Challenges and the Future

9–10 October 2019 Dolní Vítkovice

Unique and globally renowned area in the centre of Ostrava

Conference URBANSCAPES 2019 will provide a forum to debate and craft solutions for how to deal with the real impacts of climate change upon our environment in cities with a special attention to complicated urban areas. Attendees will include experts and laypersons, politicians and technicians, academics and contractors, elected representatives and developers, planners and designers and others from across the EU and abroad.
